DETAILED ACTION

Allowable Subject Matter

1. Claims 1-13 are allowed.
2. The following is an examiner's statement of reasons for allowance: it is neither anticipated nor obvious over the prior art of record to have a coating apparatus for disk-shaped workpieces as claimed by Applicant in claim 1.
3. LeBlanc discloses a specific apparatus in which there is a common transport chamber with sealing platter bases. The chambers attached to the transport chamber can be load lock chambers and sputter stations, for example. Notably, LeBlanc discloses that the "sealing door and the adjacent platter form a load-lock station which can be evacuated by conventional means (not shown) to a pressure similar to that found in the vacuum chamber" (col. 3, l. 48-51). LeBlanc never specifically discusses how the transport chamber is evacuated. Thus, conventional means for evacuating must be assumed.
4. The whole invention of LeBlanc is centered upon the transport chamber and its relation to connecting chambers. Having no discussion of the evacuation means for the transport chamber shows that the pump unit doesn't communicate with the pump opening so that with orientation of the ram onto the pump opening and subsequently its extension enters into an operational connection forming a sealed closure. It would be odd to have the whole invention centered upon the sealing enclosure of the transport chamber but still say it is obvious to have the pump connected to the transport chamber in a fashion claimed by Applicant when LeBlanc makes no mention of it. Therefore, it is not obvious to have the pump unit as claimed by Applicant.

5. Schertler discloses a pump/vent port **38** that clearly is not in operational connection forming a sealed enclosure with the transport chamber. Thus, Schertler does not render obvious Applicant's claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
